

Adcaij: Advances in Distributed Computing and Artificial Intelligence Journal: Vol 6, No 1 (2017) (Paperback)

By Juan M Corchado (Dir)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The Advances in Distributed Computing and Artificial Intelligence Journal is an international journal that will bring together ideas, projects, lessons, etc. associated with distributed computing and artificial intelligence, and their application in different areas. Nowadays, most computing systems from personal laptops/computers to cluster/grid /cloud computing systems are available for parallel and distributed computing. Distributed computing performs an increasingly important role in modern signal/data processing, information fusion and electronics engineering (e.g. electronic commerce, mobile communications and wireless devices). Particularly, applying artificial intelligence in distributed environments is becoming an element of high added value and economic potential. Research on Intelligent Distributed Systems has matured during the last decade and many effective applications are now deployed. The artificial intelligence is changing our society. Its application in distributed environments, such as the Internet, electronic commerce, mobile communications, wireless devices, distributed computing, and so on is increasing and is becoming an element of high added value and economic potential, both industrial and research. These technologies are changing constantly as a result of the large research and technical effort being undertaken in both universities and businesses. The...
