

Becoming Spacefarers: Rescuing Americas Space Program

By James A Vedda

Xlibris Corporation. Paperback. Book Condition: New. Paperback. 214 pages. Dimensions: 9.0in. x 6.0in. x 0.6in. What is a spacefaring society, and how do we get there from here For much of the time since the end of the Apollo era, participants in the U. S. space community and members of the interested public have asked that question, and been frustrated by the inability to choose a coherent path for space exploration and development, make a commitment to its implementation over the long term, and fund it appropriately. Thats because decision-makers typically aim for quick solutions to short-term needs, which conflicts with the requirements of space endeavors, which are high-risk, high-cost, long-term ventures where its more important to get it right than to do it fast. Partisanship and parochialism play a large role in this process. The book traces how these factors have affected U. S. policy-making in the past few years on issues related to spacefaring goals, and challenges the conventional wisdom that says the space program is an area of bipartisan agreement. Arguments over the appropriate roles of the public and private sectors in space have prompted the mistaken and counterproductive view that an adversarial relationship between the two...
