This published publication is wonderful. Of course, it is actually engage in, still an interesting and amazing literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

London / Andre Deutsch, 1990. Hardcover. Book Condition: New. A fine collection of over 50 symbolical geometrical paintings and skeletal sculptures, this Los Angeles-based artist pursues a 'recovery of reality' in the wake of the post-Nietzschean death of God and the shadow of the Holocaust. Bent-wood forms and iconic figures, set in intensely vibrant fields of color, evoke an inner space encompassing the artist's private musings on chaos and the act of creation. Some of the semi-abstracts are about, or inspired by, the anguish of Jewish children in Nazi concentration camps, the Diaspora, the Messiah myth and the stormy relationship of Freud and Jung. A 1st edition hardcover, with its dustwrapper in new condition. (101 pages).
