

The Exodus-Conquest Narrative

By Stephen Germany

Mohr Siebeck GmbH & Co. K Nov 2017, 2017. Buch. Condition: Neu. Neuware - In this study, Stephen Germany investigates the literary development of the non-priestly narratives in Exod 1-18; 19-24; 32-34; Num 10-16; 20-24; and Josh 1-12. Through a new comparison of the various literary strata in these narratives to priestly texts, the author concludes that a significant portion of the non-priestly narratives in Exodus-Joshua belong to a post-priestly stage of composition. The reconstruction of the remaining pre-priestly narrative in these books supports the theory of an exodus-conquest narrative as one of the literary precursors to the Pentateuch and book of Joshua, challenging both the Documentary Hypothesis and the Deuteronomistic History hypothesis in their various forms. 515 pp. Englisch.
