Birkhauser Verlag AG, Switzerland, 2001. Hardback. Condition: New. 2001 ed.. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.In the centenary year of the publication of Bachelier's thesis, what today is considered as the foundation of modern finance, we had the opportunity to invite experts in this relatively new field in mathematics to participate in a meeting at the University of Konstanz, Germany. This could be the place to consider the historical development, but as Professor Girlich presented a remarkable lecture on the past of what now is known as mathematical finance, we refer the reader to the article in this volume. Instead we take the opportunity to express our thanks to those colleagues who made this workshop possible: to Professor Sondermann, University of Bonn, Germany, who in a sense initiated the idea, to our friends Mark Davis, Robert Elliott, and Xun Yu Zhou, whose advices were extremely helpful in establishing the program of the conference, and to the invited lecturers Nicole El Karoui, Eckhard Platen, and Stan Pliska for carefully preparing their lectures. Also we gratefully appreciate our students help during the conference and Mrs Weisser's successful efforts in providing our guests with visa and hotel reservations. Last we should mention the students of the business department who organized a great conference dinner on Mainau island and who documented the meeting in a lot of photos. Finally we thank our wives Evi and Jie for giving us leave from home (-v.ork) to organize the conference.
