Reviews

This type of publication is every little thing and got me to seeking in advance and much more. I could possibly comprehend every little thing out of this created e publication. I am happy to explain how this is the finest pdf we have study in my very own life and can be the greatest ebook for actually.

(Miss Berenice Weimann Jr.)

SILICA STORIES

Springer-Verlag GmbH Mrz 2017, 2017. Buch. Condition: Neu. Neuware - Do you know silica, the tetrahedra of silicon and oxygen constituting the crystals of New Aegers and the desiccant in a box of new shoes It's no mere mundane mineral. As chemically reacting silicate rocks, silica set off the chain of events known as the origin of life. As biomineralized opal, it is the cell wall, skeleton, spicules, and scales of organisms ornamenting numerous lobes of the tree of life. Cryptocrystalline silica made into stone tools helped drive the evolution of our hands and our capability for complex grammar, music, and mathematics. As quartz crystals, silica is impressively electric and ubiquitous in modern technology (think sonar, radios, telephones, ultrasound, and cheap but precise watches). Silica is inescapable when we take a drink or mow the lawn and it has already started to save the Earth from the carbon dioxide we're spewing into the atmosphere. This book tells these scientific tales and more, to give dear, modest silica its due. 201 pp. Englisch.
