Its author has undertaken to accomplish four things: To develop a shorthand alphabet that any child in the First grade can learn and use opposite the words in the spelling, proceeding the reading exercises in its reader, to pronounce those words independent of the teacher s assistance; to so develop this shorthand alphabet, that it will record any and all articulate sounds and thereby record all languages equally well; to develop such a powerful alphabet as to be able to record all reading matter in full - without word-signs, prefixes, suffixes, etc., as briefly as any of the standard shorthand systems do by their contractions, and yet, capable of having any mode of abbreviation, used by other systems, applied to it; All in one system, in such an inductive way that the student will find it a source of pleasure from start to finish.
