FBC LTD, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Family Economics Review: March 1970 But I don t want to give you the impression that the only consumer complaints we get are the ones that affect industry. There are some very important issues that affect agriculture. My office has received a rash of consumer letters on high egg costs. Housewives are getting angry. They want to know why egg prices have gone up so sharply and they have asked me for some answers. As you know, there are many factors involved here, and they all add up to the fact that prices are up because of short supply and high demand. However, just to make sure, the Commodity Exchange Authority is conducting an investigation of futures trading in shell eggs. The purpose of this investigation is to determine whether there has been any manipulation of futures prices. Such manipulation would be detrimental to both farmers and consumers.
